

July 2011

Dear Families,

I hope you all are enjoying summer! My name is Ms. Baker and I will be your child's second grade teacher for the upcoming year. I am really looking forward to getting to know you and your child and partnering with you in the year ahead. I am also grateful to be a part of all that God is doing at HPCA.

I believe strong parent- teacher communication is essential to attaining the best possible education for your child. Support at home is crucial to your child's success, so I hope to involve you in your child's academic growth and progress throughout the year.

We have a very fun year ahead. We will be reading, writing stories, exploring new math concepts, and conducting experiments. The students will also work to make connections between subject areas and learn how to relate content to their own lives. I love teaching material in a variety of hands-on, child centered ways; therefore, learning will take place in an engaging environment in which many learning styles are used.

We will work to establish a strong class community in which every student feels comfortable and cared for. God has so much in store for each of your precious children!

I look forward to meeting you and working with you! Enjoy the rest of the summer and I'll see you in September!

Sincerely,

Ms. Baker
