

HPCA Middle School Math

2020-2021

Greetings!

This is my 5th year at HPCA and 18th year of teaching. I enjoy helping students grow in their math abilities and confidence by making learning fun and rigorous. Middle school students usually see remarkable gains in math during their years at HPCA.

In preparation for safety concerning the novel Coronavirus, I encourage all parents and guardians to **make sure their child has the listed supplies always in their book bags before reporting to school each day.** For at-home learners, **please ensure that your child has the listed supplies ready for math class every day.**

The main goal this year is that all students would demonstrate growth in mathematics at or above their grade level. Our unique educational model of in-school and online learning provides opportunities for individualized assignments and more one-on-one and small group instruction. This learning model provides me with more time to address specific needs and gives students the space to learn at their own speed.

I look forward to our partnership. Please contact me via email if you have any questions or concerns.

Sincerely,
Stephanie Soto, M.Ed.

MATH CLASS SUPPLIES

Pencils
Pens
Highlighters
Scissors
Ruler
Tape
Glue
Crayons
Markers
Graph Paper
Construction Paper
Index cards
Lined Paper
Folder
2 Rolls of paper towels

2 Notebooks:

- One composition book (for warm-ups)
- One notebook with at least 150 pages (for daily notes and classwork)

Optional:

- 1 or more bottles of hand sanitizer
- 1 or more containers of disinfectant wipes.

We know these items are in short supply, and we would greatly appreciate any amount you are able to provide.
