

# Meet the Teacher !!

Welcome to Middle School Science and Social Studies!!!

I am super excited for another year here at HPCA! I have taught 2nd grade here for 3 years. This is my first year teaching middle school here at HPCA. I can't wait to create new relationships with you and your children, and I know HPCA is a great place to start.

## About me:

I am from Philadelphia and grew up in Frankford. I have been a science geek since I could talk.

# WELCOME !!

## *Dear Families,*

Once again my name is Ms.Bee. Though this is only my first year as the middle school science and social studies teacher, I have been teaching in other capacities for about 9 years, 3 of which have been as the 2nd grade teacher here. I am excited about this year because last year taught me so much. I love improving myself and helping others to do the same. The only way to do that is through the Lord God Himself. I love teaching because I get to learn from my students as they learn from me. Not only that, but getting to know them and be there for them in any way I can brings me joy.

No one knows your child better than you. With that being said, communication is key. I want to work with you to do the best we can with the time we have. If at any moment you have a question or concern feel free to reach out to me. However, if you text or call after 6:00pm I will not respond until the next morning.

Students will have folders that go home every day and come back every day. These folders will have all homework, graded work, and other announcements in them.

I want to thank you in advance for your support and your dedication to these amazing children you have created. I want you to know, if no one told you today, that you are important, you are appreciated, you are loved and your children are blessed to have you as I am blessed to have them this year.

*Sincerely,*

*Ms.Bee*
